April, 2007

### Can U Cut it at Airpark Elite

Saturday, April 14th started out as a slightly breezy cool day with lots of sunshine, a good day to combat. As the day went on, the wind picked up in gusts now and then, but still stayed a good day to combat. Combat began at 9am with 4 contestants and the CAP there to judge each pilot, the pilots heard gentleman start your engines and off they went in the SSC Class, all pilots fighting as hard as they could to get those streamers. Four rounds later, the winners were.

**1st Place** Frank Scharnell III, **2nd place** Frank "Quad" Scharnell IV and **3rd place** Randy Hodges.

Congratulations guys, you worked hard for those placings!

Many of you know I went to the field to surprise a birthday boy, Rick the Rhyno Scharnell, who turned 14 on this day, the 14th of April. I got there just as Open B was starting. Hanging up balloons I noticed the wind was picking up a bit, it wasn't too bad, just a bit gusty, enough to make it a little difficult to tie the balloons to the fence and tables. The first 2 rounds of Open B with 8 pilots were flown while I was setting up the birthday boy's balloons and cake area. Sure was fun to watch, I don't get to see the events very often, and what fun this one was. After the first 2 rounds, lunch was served along with the yummy cake! Lunch was cooked and served by

our favorite RC chef, Phil Kenney. Thank you Phil for the Italian sausage luncheon, it was delicious! We all wished Rick Happy Birthday, Tom Neff gave a Demonstration on his Russian Combat Plane and then back to flying went the pilots of Open B. They flew the remaining 2 rounds and ended the competition around 2:15 with the winners being:

**1st Place** Top Gun Tom Neff, **2nd Place** Frank Scharnell III, and **3rd Place**, the birthday boy, Rick "Rhyno" Scharnell!

Congratulations guys, and thank you for an exciting and enjoyable afternoon!

### The Move Went Well

On April 6th, the movers showed up and began moving our back room to our new store location, which by the way is only about 5 doors down from where we were before. It was business as usual for the store front, as we were open and still selling product. At about 5pm that evening we lost phone service, as the phone lines were moved over to the new space. Then first thing at 8am on Saturday, April 7th, the store front was moved. The move went amazingly well and quick! Thank goodness. By 5pm on Saturday, we were all set up in the store front and ready to open for business on Monday. Although, the back room had a lot to be desired at that point. Sunday we straightened up the back room and set it up as best we could considering how much stuff we had, holy cow! The space isn't exactly what we wanted, but it'll work. Most of the customers who have come into the store have commented they like this store better. It is much brighter with the tile floors. Hey lets face it, with the checkerboard floor, if ever business is real slow, I could play checkers (just kidding). I do tend to agree, the store is much brighter inside. We also now have an official sign above the store door! Thank you to John Neumeier's Brother in law, who did the graphics for us, the sign came out absolutely beautiful! We are in the process now of having more graphics made for a sign that will adorn the back of the store too, which can be seen from Parker Road and Lincoln Avenue. We have been flying behind the store too, its nice we don't have to wait to fly our electrics until school lets out anymore. Come on in and Check out our new duds! I think you will like it! We are going to have an open house, don't know what day yet as we have to pick a weekend that no events are going on and that Frank can be here. Meanwhile, we are trying to come up with an idea to make the Open House a special event, any ideas? If you have an idea for me, please feel free to email it to me, I'd appreciate your input, as we see it as this store is your store too!

## What's New

Check it out, the Futaba 6EX FASST Spread Spectrum is here! It appears to be very easy to program, and the receiver for this radio is \$20 less than the DX7 receiver. The Futaba does not come with servos or a receiver battery, which is nice when you have servos and a battery already in your plane, all you need to do is change the receiver and program the radio in your plane. We also have in the Ultimate Biplane 3D Arf by Electrify. Sure is a nice looking plane and by appearance and past experience with electrify, it should fly very well! The Eflite Mini Ultra Stick is blessing our shelves right now, we all how much sticks are to fly! This one flies very well and is all ready for someone to claim it as theirs!

## Wanted

We have a customer looking to buy a used OS .91 to 1.20 2 stroke engine, if you have one and would like to consign it, please bring it in!

## Looking for RC Aircraft and/or equipment, Check out these Consignments

- \*Lucky Fly Low wing 60 size, price reduced from \$150 to \$110.00
- \*Aero-Star biplane 40 size, \$100.00 price reduced \$80.00
- \*Mini Kadet with magnum .15 engine & servos, has rudder and elevator control, \$125.00 price reduced \$100.00
- \*Small glider good condition... \$100.00 Price Reduced \$75.00
- \* Aeroworks Edge 540 RTF...has modified exhaust system, something you have to see! Installed is a Futaba 6 EXA radio equipment with a Super Tigre 2300 engine.\$700.00
- \*World Models 120 Fun World, good condition...\$200.00 Price reduced \$125.00
- \*Goldberg Staudacher, excellent condition \$165.00 Price reduced \$125.00
- \*Goldberg Eaglet, could use new covering \$45.00...Price reduced \$35.00
- \*Airtronics 4-channel Vanguard PGM radio...Best Offer
- \*AM Attack 4 4-channel radio...\$47.50
- \*Aeroworks Edge .40 size RTF Great condition...\$450.00
