September, 2007

Can U Cut it Airpark #4

There were no obstacles to over come in this meet, weather was very nice and the meet got off to a great start on September 1st. So often at this time of year, you just don't know what to expect as far as the weather goes, but Mother Nature was shining on this day! Three classes were flown at this meet, Open B, SSC and 3696E class. In 3696E class there were 3 pilots. Fun was had by all 3. Away they went flying 4 rounds. At the end of the 4th round, the placings were as follows:

<p>Top Gun Tom Neff taking 1st</p>		<p>Chris Phillips taking 2nd Keep going, Chris you are doing Great in your 1st season!</p>		<p>and Frank Scharnell III taking 3rd. Alan looks a bit surprised here. Hey Alan, there were 3 Pilots Midair or not, Frank had to place!</p>	
------------------------------------	---	--	---	--	---

In the SSC Class 5 rounds were flown, they were fast and furious, or should I say they were slow and furious  You all know how SSC is, slow and survivable. Four pilots flew SSC and had a great time! After round 5, the winners were as follows:

<p>Frank "Quad" Scharnell with 1st place You are having an Awesome year, Quad!</p>		<p>Frank Scharnell III with 2nd Place Look at this smile Frank is happy with this one!</p>		<p>And Top Gun Tom Neff with 3rd Place Those Scharnell boys are comin' to get you Tom, uh oh!</p>	
--	--	--	--	---	--

In the Open B Class, 7 rounds were flown, this time it was all fast and furious and a good time of streamer cutting! Six pilots flew this class and all went home with smiles on their faces! After round 7, the top dogs were:

<p>Rick "Rhyno" Scharnell winning 1st Place Rhyno really dominated this meet!</p>		<p>Top Gun Tom Neff winning 2nd Place I bet you are proud of your prodigy, Rhyno</p>		<p>and Frank "Quad" Scharnell winning 3rd Place Quad, what happened, your brother beat you! I know, you are proud of him</p>	
---	---	--	---	--	---

Congratulations to all the winners. There is only 1 sanctioned event left for the season in Colorado on October 13th. Good luck to all of you and all who fly! Thank you's go out to Phil Kenney with his wonderful culinary skills yet once again with his Fajitas at lunch time!

Aeroworks Fly-In at Mile Hi

Aeroworks put on yet another great event! This Fly-In took place on September 15th and what a beautiful day it was, in the 80's and very sunny! The field was groomed beautifully, thank you to Gary Brady and all who helped him. The event went off without a hitch and all the proceeds went to Cerebral Palsy of Colorado. I heard the event raised \$6000 for CP of Colorado. The volunteers came all together for Rocco and Sandy and helped to make it a smooth day of fun! Thank you to all who instructed and helped the kids fly. All the volunteers received a gift certificate to Air Scharnell in thanks for their help for what turns out every year to be Mile Hi's largest event of the year. Only a few mishaps for the day but other than that a total success for all who came and flew. The Silent Auction went very well, I am sure this is something that will continue for years to come. Which by the way, there are 2 helicopters here at Air Scharnell in which were not gotten to in the silent auction, if you are interested in them, they are sitting right up front and all the proceeds of the sale goes to CP of Colorado!

What's New at Air Scharnell

We here at Air Scharnell have a new Distributor. The Distributor is Mercury Adhesives. Wow, the glues they have! We now have in stock 7 different types of CA glues! There is Thin, Medium, Thick, Flexible, Hi Performance, Foam Safe Medium and Foam Safe Thick glues along with a spray Debonder and spray Accelerator. They are all very reasonably priced! These glues have been tested against the other brands of CA and are much stronger! They have a 2 year unconditional guarantee and best yet, they have a non-clog cap. No more of using pliers to get the tops off. The thin, medium and thick glues come in 3 different size bottles. The small bottles would be perfect for taking to the field! We also have the Mercury Adhesives Threadlocker, this comes in a package of 4 which all have different strengths! Come in and check it out, I think you will be pleased! It is my understanding, the only place you can buy these glues is through the hobby shop and we are the ones in this area who carry it now!

We are still carrying the Bob Smith glues for those who are loyal to them too!

Looking for RC Aircraft
and/or equipment, Check out
these

Consignments

- *Lucky Fly Low wing 60 size, price reduced from \$150 to \$110.00
- *Mini Kadet with magnum .15 engine & servos, has rudder and elevator control, \$125.00 price reduced \$100.00 or **best offer**
- *Small glider good condition... \$100.00 Price Reduced \$75.00
- * Aeroworks Edge 540 RTF...has modified exhaust system, something you have to see! Installed is a Fudaba 6 EXA radio equipment with a Super Tigre 2300 engine. \$700.00 price reduced \$600.00
- *2-Helicopters 60 & 90 size donated to CP by Channel 4 News helicopter pilots \$125.00 each
- *Goldberg Staudacher, excellent condition \$165.00 Price reduced \$100.00
- *Aeroworks Edge .40 size RTF Great condition...\$450.00
- *Hanger 9 Arrow RTF with .52 magnum and Mac pipe, landing gear has been changed and beefed up to withstand hard landings comes with 4 channel JR Quatro Radio...\$250.00
- *2-JR PGM receivers for Channel 33
 - 1-10 Channel...\$75.99
 - 1-7 Channel...\$35.00
- *JR PGM Transmitter Module ch 33...\$40.00
- *Wattage Giles ARF, partly built, comes with servos, receiver and motor along with extra motor and extra wing...\$200.00
- *GWS Zero, already painted, comes with 2 ESC's, GWS 400c motor and battery.....\$150.00
